Dear Allen,

We have completed the evaluations of the September 1964 cases. The attached two sightings of 10 Sep 64, Cedar Grove, Iowa and 20 Sep 64, Coldwater, Ohio, have not been evaluated. We request your assistance in these two cases.

We are now working with the July and August sightings and will forward cards as soon as each month is completed.

Hoping to hear from you on the January to June 1964 cases.

Sincerely,

DAVID E MOODY

Dear Sirs:

In spite of your official denials of such, I feel obliged to report the following UFO sighting:

Date: September 10, 1964

Time: 20:09 EDT

Location: Cedar Grove, New Jersey

Description: Four white lights, approximately 3-4th magnitude in brightness, first sighted in Northern sky, approximately 5° below Ursa Major. Elevation approximately 15° above the horizon, traveling East to West in formation (straight line fore to aft. Equally spaced, with apparent separation of approximately 3 or 4 degrees. Unable to estimate speed. Visual contact lost after approximately 45 seconds, after disappearance in haze on Western horizon.

Atmospheric Conditions: Sky clear, slight haze.

Observer: Observer is normal 31 year old male, with scientific background (Chemist). Some previous experience in amateur astronomy. Eyesight excellent. Observer does not drink.

Respectfully submitted by
